Excellent event needs to be supported by all Public Sector organisations.

- **Eileen Turnbull**, *Asset Manager, Clackmannanshire Council*

What was the most beneficial part? Understanding those with different roles within public sector asset management are all facing similar challenges.

- **Christie McNaughton**, *Project Manager, University of Stirling*

...The conference provided an excellent perspective on current best practice and the rather daunting challenges facing public sector asset management. Very good quality of speakers from both sides of the border with good networking opportunities during the breaks. I would commend the conference to anyone seeking the "state of the nation" and how we are trying to overcome the perfect storm that is gathering.

- **Jeremy Watt**, *URS*
